Hockey, such fun!

Viper LX is an ice hockey skate designed for recreational use and fun trainings with friends.

The waterproof synthetic material liner is light and protective while the anatomical internal structure wraps around the foot for greater lateral support and perfect stability even during prolonged training sessions. Fastening is simple and secure thanks to the laces and Power Strap Velcro closure on the instep.

The pre-sharpened hockey-specific blade is made of stainless steel and is mounted on a super lightweight composite blade holder.

Ready to score?

Blade:	Pre-sharpened stainless steel hockey blade, 52-55 HRC, 3.5mm thick. Ultralight composite blade holder.
Structure:	Anatomical internal structure
Closure:	Laces and power strap
Lining:	Padded velvet lining
Size range:	EU 37-46 (Full size only)

Performance and safety.

Viper HC Plus is a reliable, precise and high-performance ice hockey skate.

The boot is made of sturdy composite shell, is lined with padded velvet for greater thermal insulation and has a raised felt tongue to optimize the fit and protect against impact during play.

The anatomical padding of the structure envelops the foot and allows for better transmission of force to the blade while lacing is quick and easy even with gloves on.

The reinforced toe cap and rear spoiler in synthetic material increase protection in the most intense playing situations.

The blade holder is made of ultralight material and is fitted with a pre-sharpened blade specific for hockey in brushed stainless steel.

Precise movements and sharp changes of direction are not afraid of the Viper HC Plus!

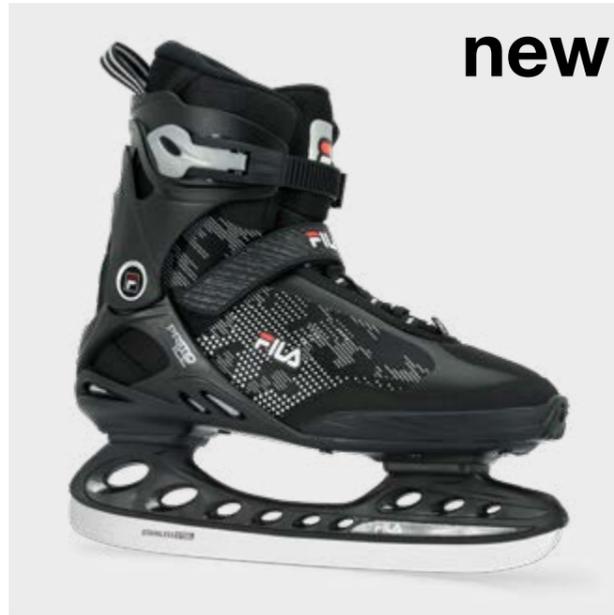

Blade:	Pre-sharpened stainless steel sand polished hockey blade, 52 - 55 HRC, 3,5 mm thick. Ultralight composite blade holder.
Structure:	Anatomical Internal Structure with reinforced toe box and rear protective spoiler.
Closure:	Lacing closure system
Lining:	Padded velvet lining and felt tongue
Size range:	EU 37-46 (Full size only)

FITNESS SOFT

Glide on ice and tone your muscles.

Fitness Ice skates by Fila Skates guarantee unmatched comfort and performance during relaxed skates or intense workouts on ice. Train and stay fit without ever taking your skates off your feet!

Fitness on ice

Primo Ice is dedicated to skaters of all levels that ensures unparalleled comfort and performance during long training sessions on ice.

The synthetic liner is lightweight and has a high composite cuff for maximum ankle and foot support. The anatomical internal structure wraps around the foot and protects it, creating a comfortable fit and increasing the feeling of comfort during long training sessions on the ice.

The lacing system with laces, millimetric lever positioned on the ankle and Power Strap Velcro on the instep allows for a customized fit that can be easily adjusted even during training.

The composite blade holder mounts a pre-sharpened, satin-finished stainless steel blade that lends itself to multi-activities with adequate performance and reliability even on less than perfect surfaces.

Robust materials for exceptional performance.

Blade:	Stainless Steel sand polished hockey blade. 53 - 55 HRC, 3 mm thick. Exclusive Fila Skates design blade holder.
Structure:	Lighweight, supportive shell/cuff moulded structure. High cut boot.
Closure:	Cuff buckle, Power Strap and laces
Lining:	Velvet lining
Size range:	UK 6 - 13

FIGURE

Fila Skates dedicated to figure skating lovers are lightweight, safe, and durable, designed for recreational use on the ice.

EVE ICE

010422050 | White

Elegance and classic lines

For figure skaters Eve Ice combines aesthetics, comfort, lightness and premium materials. The rounded, padded collar wraps around and supports the ankle, the padded tongue creates a snug, comfortable fit, and the lace-up closure wraps around the entire length of the shoe. The pronounced heel improves posture and stability while the polished stainless steel blade is specific for figure skating.

Blade:	Polished Stainless Steel blade, specific for figure. 52 - 55 HRC, 3,5 mm thick
Structure:	Ergonomic structure with reinforced synthetic outer
Closure:	Laces with easy hooks
Lining:	Synthetic fabric with reinforced ankle padding and felt lined anatomical tongue
Size range:	EU 30-43 (Full size only)

JUNIOR

Safety and comfort without forgetting performance and goals.

Fila Skates' Junior Ice skates grow with the young skaters thanks to the Step Jem and Micro Jem mechanisms, two innovative technologies by Fila Skates that allow accurate adjustment of the skate length based on the natural growth of the foot.

Young ice hockey players grow up.

Viper HC Junior is a reliable, precise, solid and easy-to-use ice hockey skate, perfect for the kids approaching the sport. The boot is made of sturdy composite shell, is lined with padded velvet and has a raised felt tongue to optimize the fit.

The padding of the anatomical structure envelops the foot and allows for better transmission of force to the blade while lacing is quick and easy even with gloves on.

The reinforced toe cap and rear spoiler is synthetic material increase protection in the most intense playing situations.

The blade holder is made of ultralight material and is fitted with a pre-sharpened blade specific for hockey in brushed stainless steel.

Viper HC Junior grows with the foot of the smallest skaters thanks to an internal millimetric size adjustment mechanism that allows even the slightest adjustment of the skates even while it is being worn.

The fun is assured with the Viper HC Junior!

Blade:	Pre-sharpened stainless steel sand polished hockey blade, 52 - 55 HRC, 3,5 mm thick. Ultralight composite blade holder.
Structure:	Outer composite shell with reinforced toe box and rear protective spoiler.
Closure:	Lacing closure system
Lining:	Padded velvet lining and felt tongue
Size range:	S (31-34) M (35-38) L (39-42)

MICRO JEM MECHANISM

Micrometric Junior Extension Mechanism

Adjustment is possible with a simple action:

- Pull out the micro-adjustable lever under the heel.
- Turn the lever to lengthen/shorten the shoe.

This mechanism is unique in 3 ways, essentially:

- It's very light
- It allows the user to make even minimal adjustments to the length
- The adjustment is millimetric, not simply by one shoe size or 1 cm at a time.
- The skate can be adjusted while actually being worn, so the user is sure of adjusting to the right size.

Young ice skaters grow up

X 2.0 Ice is a solid and easy-to-use ice skate that is perfect for beginner and intermediate skaters. The fabric liner is light and breathable while the localized pre-shaped padding follows the ergonomics of the child's foot. Fastening is simple and secure thanks to the laces, the millimetric lever positioned on the ankle and the Velcro Power Strap on the instep. The cuff and composite shell create a secure, stable and comfortable structure from the very first skate.

The composite blade holder mounts a pre-sharpened, satin-finished stainless steel blade that lends itself to multi-activities with adequate performance and reliability even on less than perfect surfaces.

X 2.0 Ice grows with the foot of the smallest skaters thanks to Fila Skates' Micro Jem™ technology, a millimetric size adjustment that allows even the slightest adjustment of the skate even while it is being worn.

The fun is assured with the X 2.0 Ice!

Blade:	Stainless Steel sand polished hockey blade. 53 - 55 HRC, 3,5 mm thick

Easy to use

J-one ice HR is a colorful, fun and safe skate suitable for young beginner hockey players from the very first use. The shoe is lightweight and equipped with localized pre-formed padding that follows the ergonomics of the child's foot. The closure is simple and safe thanks to the laces and the two micro-metric levers positioned on the ankle at the instep. The cuff and composite shell create a secure, stable and comfortable structure in every situation while the composite blade holder mounts a pre-sharpened, satin-finished stainless steel blade that is suitable for everyday activities on ice. J-one ice HR grows with the feet of little ones with a simple click: Fila Skates' Step Jem™ mechanism allows for quick and easy adjustment of the skate size so it will always fit perfectly.

Safe, colorful and easy to wear.

Blade:	Stainless Steel sand polished hockey blade. 53 - 55 HRC, 3,5 mm thick
Structure:	Lighweight, supportive shell/cuff moulded structure. High cut boot
Closure:	Double Safety Buckle Closure
